"I feel great since the treatment. Your energy work is really good. I will highly recommend you to my patients." - Dr. T., DDS, DMD

"Thank you for the Reiki energy healing. The pain is gone! You have angel hands!" - Marta L.

ENERGY MEDICINE

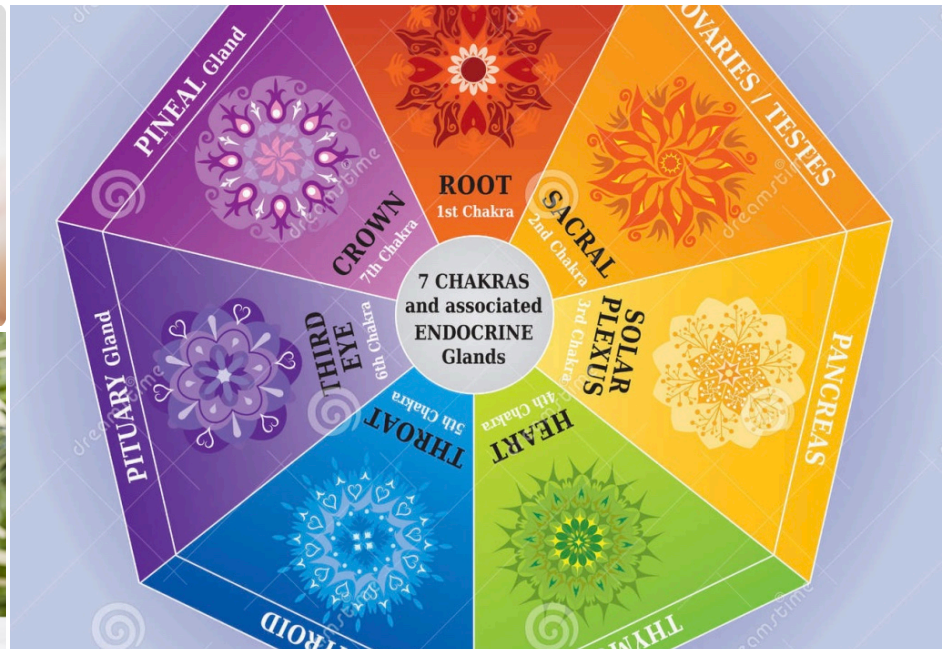

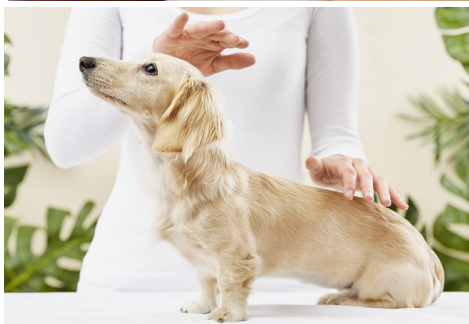

Ventura, California

LIFE FORCE ENERGY INSTITUTE provides holistic healing through the practice of energy medicine for both humans and nonhumans alike. Therapies include Reiki, the ancient Japanese method of transmitting Qi/Ki (life force energy) by the hands into the body, as well as Pranic and QiGong to clear limiting core beliefs held in the mind that prevent wellness and healing.

We provide in-home and in-hospital visits, as well as personal sessions at health centers, meditation/yoga centers, and animal shelters and sanctuaries, based on location. We work synergistically with doctors, veterinarians and other health practitioners in the wellness community.

Reiki is now one of the top three complementary in-patient therapies in US hospitals, according to an AHA survey.

"Energy medicine is moving into our health care system quickly, powerfully, and none too soon." - Dr. Christiane Northrup

"We have as a society come to the end of our journey in Newtonian medicine. We have built a medical system based on drugs and surgery. We can't go much further with the current model of conventional medicine. Energy medicine is not just the latest fad in alternative health care. It is a fundamentally new way of grasping who we are. The medical community is listening." - Dr. Christiane Northrup

"My tumor had shrunk significantly and my doctor cancelled the surgery! I was astounded by the results of Kathleen's energy treatment, which was nothing short of miraculous!" - Elizabeth C.

"As we get better at understanding how little we know about the body, we begin to realize that the next big frontier in medicine is energy medicine." - Dr. Mehmet Oz

Reiki is now one of the top three complementary in-patient therapies in US hospitals, according to AHA.

Reiki is a powerful, gentle and non-invasive therapy that addresses physical, mental and emotional issues and brings healing to the source. It is a complementary modality to western medicine.

During a session, a deep state of peace and relaxation is experienced, as Reiki clears blocked chakras and imbalances, allowing for the flow of new energy and harmonious patterns of health to emerge.

Reiki strengthens the immune system, relieves pain, facilitates healing and promotes longevity. It reduces the side-effects of prescription drugs and other treatments, as well as environmental pathogens.

Reiki heals anxiety-related issues, such as depression, grief, anger, stress, post traumatic stress disorder, addiction, and other causes.

Reiki provides support in geriatric, palliative and end of life care. When physical healing is no longer possible, it eases the transition.

LIFE FORCE ENERGY INSTITUTE was founded by Kathleen Lowson, a Spiritual Intuit and Reiki Master. She has worked with clients in illness, recovery and rehabilitation, as well as general health and wellness, for over 20 years. Her powerful energy work has transformed lives.
